

EWFM

Folding Platforms - Mobile Step Unit

For access and easy loading of goods

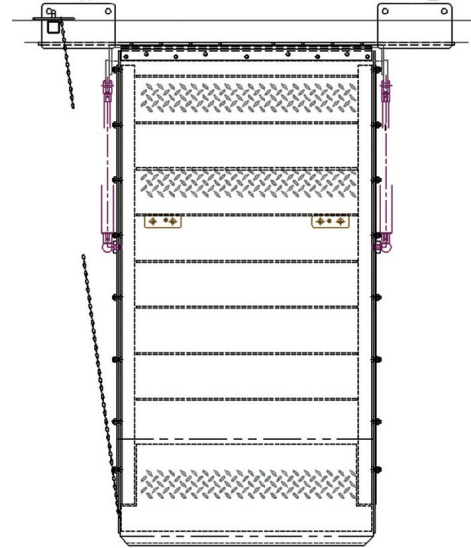

EWFM Safe Access Systems: Protecting your workers in hazardous and high level environments. The Droprite Folding Platform is used extensively in warehouse loading docks and in distribution centres as they facilitate easy loading of goods.

Technical Specification

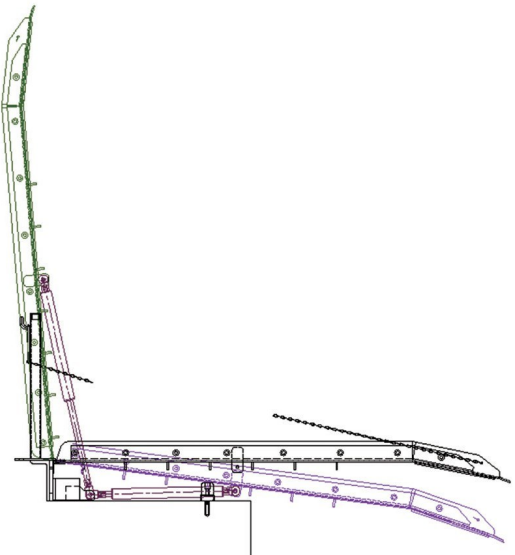

All Droprite Units are manufactured and constructed to the highest quality for long lasting durability and many years of maintenance free operation in harsh environments. The body of the Platform is hot dipped galvanised after manufacture and the decking is aluminium tread plated. All Platforms have a gas strut assisted operation and can have fixed or optional folding hand rails. The Platforms are designed to enable the loading and unloading of vehicles with varying height load beds.

Installation

EWFM offer supply only or full installation and commissioning: Supply only units come with full installation instructions. EWFM also offer on-going staff training and instruction as well as annual inspection and maintenance contracts.
