Reduced Height Swivel Joint - Model 3996-WNE - Carbon Steel Standard Construction

Exploded View

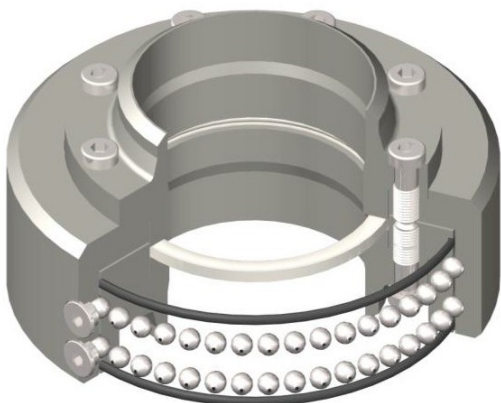

Standard Features:

The Model 3996-WNE reduced height carbon steel swivel joint with butt weld flanges is a 4 piece design with hardened and grinded raceways. The reduced height makes this swivel suitable for bottom unloading and it has a AISI 309 sealing surface. The design has PTFE® energized seals and it allows for easy swiveling, seal replacement and a quick swivel joint replacement.
