

Access Systems

Folding Stairs - Pneumatic

Designed for top loading tankers and platform access:

The EWFM Pneumatic Step Unit is suitable for all rail and road tanker loading and platform access, and is available in a range of standard sizes to suit many height variations.

Technical Specification:

All Units are manufactured and constructed to the highest quality for long lasting durability and many years of maintenance free operation in harsh environments.

Constructed from galvanised mild steel to BS 729 for long lasting durability in harsh environments.

All Units comply with ATEX 95 equipment directive 95/9/EC this concerns the supply and use of equipment in potentially explosive atmospheres.

Optional Extras:

An optional safety cage can be fitted to any pneumatic Step Unit which is constructed from galvanised mild steel to BS 729.

Support:

EWFM offer on-going staff training and instruction as well as annual inspection and maintenance contracts.

Delivery

Delivery is available on request - POA. Delivery is from our manufacturing site in Nottingham.

** Safety Cages are designed to individual needs
